2.1 Check Sheets. When a tariff (price sheet) filing is made with the IPUC, an updated Check Sheet accompanies the filing. The Check Sheet lists the sheets contained in the filing with a cross reference to the current revision number. When new pages are added, the check sheet is changed to reflect the revision.

2.2 Numbering. Sheet numbers appear in the upper left corner of each page. Sheets are numbered sequentially. When a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between sheets 6 and 7 would be 6.1.

2.2.1 Sheet revision numbers also appear in the upper left corner of each page. These numbers are used to determine the most current sheet version on file with the IPUC. For example, the 4th revised sheet 6 cancels the 3rd revised sheet 6. Consult the check sheet for the sheet currently in effect.

2.3 Paragraph Number Sequence. There could be several levels of paragraph coding. Each level of coding is subservient to its next higher level.

4. Deposit Requirement - NO DEPOSIT REQUIRED

5. Termination of Service

Least Cost Routing, Inc. d/b/a Long Distance Charges, Inc. will comply with all Sections of the Idaho PUC's rules and regulations in IDAPA 31.41 regarding termination of service, if such rules and regulations are applicable to the Company.

6. Service Offering

6.1 Calculation of Distance

6.1.1 Usage charges for all mileage sensitive products are based on the airline distance between rate centers associated with the originating and terminating points of the call.

6.1.2 The airline mileage between rate centers is determined by applying the formula below to the vertical and horizontal coordinates associated with the rate centers involved. Least Cost Routing, Inc. d/b/a Long Distance Charges, Inc. uses vertical and horizontal coordinates produced by Bell Communications Research in their NPA-NXX V & H coordinates tape in Bell's NECA Tariff No. 4.

6.1.2.1 Formula

$$\sqrt{\frac{(V1 - V2)^2 + (H1 - H2)^2}{10}}$$

Least Cost Routing, Inc. d/b/a Long Distance Charges, Inc.

6.2 Minimum Call Completion - Customers can expect a call completion rate of not less than 90% during peak periods for Feature Group A (FGA) services. The call completion rate is calculated as the number of calls completed, including calls completed to a busy or unanswered line, divided by the number of calls attempted.

6.3 Description of Services Offered

6.3.1 1+ MTS service is offered to business customers on a monthly basis. Service is offered twenty-four hours a day, seven days a week.

6.3.2 800 service is offered to business customers on a monthly basis. Service is offered twenty-four hours a day, seven days a week.

6.4 Liability of Least Cost Routing, Inc. d/b/a Long Distance Charges, Inc. - The included tariff language does not constitute a determination by the Commission that a limitation of liability imposed by the Company should be upheld in a court of law. Acceptance for filing by the Commission recognizes that it is a court's responsibility to adjudicate negligence and consequential damage claims. It is also the court's responsibility to determine the validity of the exculpatory clause. The Company will give at least 10 days notice to customers and the Idaho PUC before increasing rates or other changes. The notice to customers will be either individual notice or a public notice in the newspapers in the Company's Idaho service areas.
