Tariff Format

- A. Sheet Numbering - Sheet numbers appear in the upper right corner of the sheet. Sheets are numbered sequentially. However, new sheets are occasionally added to the tariff. When a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between sheets 14 and 15 would be 14.1.
- B. Sheet Revision Numbers - Revision numbers also appear in the upper right corner of each sheet. These numbers are used to determine the most current sheet version on file with the IPUC. For example, the 4th revised Sheet 14 cancels the 3rd revised Sheet 14. Because of various suspension periods, deferrals, etc. the IPUC follows in their tariff approval process, the most current sheet number on file with the Commission is not always the tariff page in effect. Consult the Check Sheet for the sheet currently in effect.
- C. Paragraph Numbering Sequence - There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:
- 2.
  - 2.1.
  - 2.1.1.
  - 2.1.1.A.
  - 2.1.1.A.1.
  - 2.1.1.A.1.(a).
  - 2.1.1.A.1.(a).I.
  - 2.1.1.A.1.(a).I.(i).
  - 2.1.1.A.1.(a).I.(i).(1).

Tariff Format (Cont'd.)

- D. Check Sheets - When a tariff filing is made with the IPUC, an updated check sheet accompanies the tariff filing. The check sheet lists the sheets contained in the tariff, with a cross reference to the current revision number. When new pages are added, the check sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (\*). There will be no other symbols used on this page if these are the only changes made to it (i.e., the format, etc. remains the same, just revised revision levels on some pages). The tariff user should refer to the latest check sheet to find out if a particular sheet is the most current on file with the IPUC.

Section 2 - Rules and Regulations

2.1 Undertaking of NeTel, Inc.

NeTel, Inc.'s services and facilities are furnished for communications originating at specified points within the State of Idaho under terms of this Tariff.

NeTel, Inc. installs, operates and maintains the communication services provided herein under in accordance with the terms and conditions set forth under this Tariff. It may act as the customer's agent for ordering access connection facilities provided by other carriers or entities, as legally defined in Idaho Public Utilities Commission rules and regulations, when authorized by the customer to allow connection of a customer's location to the NeTel service. The customer shall be responsible for all charges due for such service arrangement.

2.2 Limitations

2.2.1 Service is offered subject to the availability of facilities and the provisions of this Tariff.

2.2.2 NeTel reserves the right to discontinue furnishing service, or limit the use of service necessitated by conditions beyond its control or when the customer is using service in violation of the law or the provisions of this Tariff.

2.2.3 All facilities provided under this Tariff are directly controlled by and the customer may not transfer or assign the use of service or facilities, except with the express written consent of the Company. Such transfer or assignment shall only apply where there is no interruption of the use or location of the service or facilities.

Section 2 - Rules and Regulations (Cont'd.)

2.2 Limitations (Cont'd.)

2.2.4 Prior written permission from the Company is required before any assignment or transfer. All regulations and conditions contained in this Tariff shall apply to all such permitted assignees or transferees, as well as all conditions for service.

2.3 Liabilities of the Company

2.3.1 The below tariff language does not constitute a determination by the Commission that a limitation of liability imposed by the Company should be upheld in a court of law. Acceptance for filing by the Commission recognizes that it is a court's responsibility to adjudicate negligence and consequential damage claims. It is also the court's responsibility to determine the validity of the exculpatory clause.

2.3.2 NeTel's liability for damages arising out of mistakes, interruptions, omissions, delays, errors, or defects in the transmissions occurring in the course of furnishing service or facilities, and not caused by the negligence of its employees or its agents, in no event shall exceed an amount equivalent to the proportionate charge to the customer for the period during which the aforementioned faults in transmission occur.

Section 3 - Description of Service (Cont'd.)

3.21 Calculation of Distance

Usage charges for all mileage sensitive products are based on the airline distance between rate centers associated with the originating and terminating points of the call.

The airline mileage between rate centers is determined by applying the formula below to the vertical and horizontal coordinates associated with the rate center involved. The Company uses the rate centers and associated vertical and horizontal coordinates that are produced by Bell Communications Research in their NPA-NXX V & H Coordinates Tape and Bell's NECA Tariff No. 4.

FORMULA:

$$\frac{\sqrt{(V1 - V2)^2 + (H1 - H2)^2}}{10}$$

EXAMPLE: Distance between Miami and New York City -

	<u>V</u>	<u>H</u>
Miami	8,351	529
New York	4,997	1,408
Difference	3,354	-879

Square and add: 11,249,316 + 772,641 = 12,021,957

Divide by 10 and round: 12,021,957 / 10 = 1,202,195.70  
= 1,202,196

Take square root and round: 1,202,196 = 1,096.4  
= 1,097 miles

3.22 Minimum Call Completion Rate

A customer can expect a call completion rate of not less than 99% during peak use periods for all FGD services.

Section 4 - Rates (Cont'd.)

4.22 Exemptions and Special Rates

4.22.1 Discounts for Hearing Impaired Customers

Intrastate toll message rates for TDD users, which is communicated using a telecommunications device for the deaf (TDD) by properly certified hearing or speech impaired persons or properly certified business establishments or individuals equipped with TDDs for communicating with hearing or speech impaired persons, shall be evening rates for daytime calls and night rates for evening and night calls. These discounts shall be offered by all interexchange carriers and LECs.

4.22.2 Directory assistance for the Handicapped

The company will not charge for directory assistance calls made by verified handicapped persons.

4.22.3 Operation of Telecommunications Relay Service

For intrastate toll calls received from the relay service the local exchange and the company shall discount relay service calls by 50 percent off the otherwise applicable rate for a voice nonrelay call except that where either the calling or the called party indicates that either party is both hearing and visually impaired, the call shall be discounted 60 percent off the otherwise applicable rate for a voice nonrelay call. The above discounts apply only to time-sensitive elements of a charge for the call and shall not apply to per call charges such as a credit card surcharge. In the case of a tariff which includes either a discount based on number of minutes or the purchase of minutes in blocks, the discount shall be calculated by discounting the minutes of relay use before the tariffed rate is applied.
