**LONG DISTANCE SERVICES****3. Two-Point Service (Cont'd)****3.4 Time of Day**

The time when connection is established is determined in accordance with the time-standard or daylight savings - legally or commonly in use at the location of the rate center of the calling service point, determines whether Day, Evening, Night or Weekend rates apply. This rule applies whether the message is sent paid or collect.

**3.5 Rates**

The following rates apply to intrastate intraLATA business between service points within the designated LATAs in the State of Idaho:

**3.5.1. Usage - All Classes of Service**

- (A) Initial period rates indicated in the rate tables in 3.6 are for connections of one minute or any fraction thereof.
- (B) All additional minute rates indicated in the rate tables in 3.6 are for each additional minute or any fraction thereof, that the connection continues beyond the initial period.
- (C) When the connection is established in one rate period and ends in another, the rate for each rate period applies to the portion of the connection occurring within that rate period. In the event that a minute of use is split between two rate periods, the rate in effect at the start of that minute applies.
- (D) Discounts for the Evening, and Night and Weekend reduced rate periods indicated in the table in 3.3.4, preceding, are expressed as a percent reduction of the charge calculated at the rates indicated in the table in 3.6 are applied to message connections established during the periods indicated in 3.3.4, preceding.
- (E) Discounts apply to the charge for the initial minute occurring within the discount rate period and to all additional minutes occurring within each discount rate period. The discount is computed separately for charges in each rate period and the results are then totaled. When application of the discount results in a fractional charge, the amount will be rounded down to the lower cent.
