For completed in-state calls using a MinutePass Branded Phone Card, the value of a MinutePass Branded Phone Card may be decremented up to 8 times the interstate minute described above. The value of each in-state minute equals 8 times the current interstate minute value as described in this service. Other charges or surcharges may apply to card use. Partial minutes used are billed as full minutes.

4. Recharging

MinutePass Branded Phone Cards are rechargeable, meaning that additional value may be added to a card, subject to a maximum allowed value per card, unless the card has expired or as otherwise expressly stated on the card, card packaging, or in the Service Agreement. Such additional minutes will be charged at the prevailing per minute rate as of the date of recharging. A minimum of ten dollars (\$10.00) and up to a specified maximum amount may be added to the card per each recharge.

In addition to the foregoing, rechargeable cards are also subject to the following terms and conditions:

- .01 Upon recharge, a recharge fee of up to a maximum of fifteen percent (15%) of the recharge value may be assessed.
- .02 Recharge may be accomplished in any of the following manners:
  - .021 By credit or debit card using the toll free access number printed on the card and following the audio prompts.
  - .022 By registering the card for "auto-recharge," an expedited recharge process that alerts the consumer when their calling card balance falls below a certain level and offers the option of an automatic recharge in the same dollar amount of the customer's previous recharge.

Recharge minutes or dollars of service purchased via the toll free access number or through auto-recharge must be paid for with a verified valid credit or debit card.

5. Exclusions

MinutePass Branded Phone Cards cannot be used for calls to 700-, 900-, or 976 services or for certain operator assisted, third party billed or collect calls. Any unused balance on a MinutePass Branded Phone Card cannot be transferred to or combined with one or more other MinutePass Branded Phone Cards.

7. Regulations

Use of MinutePass Branded Phone Cards is available by calling the MinutePass toll free number printed on the card.

A completed call may only be charged to a MinutePass Branded Phone Card that has a balance sufficient to cover the charges assessed for the call. The MinutePass Branded Phone Card balance will be reduced by the appropriate minutes or dollars charged for the completed call.

After the number of the called party is dialed, but before the call is completed, the available balance of talk time based upon the telephone number of the called party will be announced to the caller. A MinutePass Branded Phone Card call will be interrupted with an announcement when the available balance on the card drops to one minute, based on the originating/terminating phone numbers of the call. Once the balance on the card is insufficient to continue, the call will terminate.

Credit allowances for interruptions: MinutePass Branded Phone Cards will credit one minute on a consumer's MinutePass Branded Phone Card in the event of poor call transmission or call cut off caused by Telecom\*USA. To receive a credit, the consumer must promptly notify MinutePass Customer Service of the service problem by calling the Customer Service number printed on the card. Credit will not be given when interruptions are caused by the failure of systems not provided by Telecom\*USA, by the failure of other Telecom\*USA services connected to the MinutePass Branded Phone Card, for wrong telephone numbers or other causes outside the control of Telecom\*USA.

Activated MinutePass Branded Phone Cards are non-refundable. Once activated, and subject to applicable terms and condition, a MinutePass Branded Phone Card may be used to originate direct dialed calls until the available card balance is depleted or the card expires, whichever first occurs. Card expiration dates will be specified on the card or the card packaging.

8. Other Conditions of Service

.01 The U.S. Public Payphone Surcharge applies when a MinutePass Branded Phone Card is used to place a call from a U.S. public or semi-public payphone.

.02 State Universal Service Charge: Telecom\*USA may, at its option, apply the State Universal Service Charge at time of sale.
