

TITLE SHEET

Idaho Telecommunications Tariff

This tariff contains the descriptions, regulations, and rates applicable to the furnishing of service and facilities for telecommunications services provided by WorldTeq Corporation, with principal offices at 30 West Gude Drive, Suite 470, Rockville, Maryland 20850. This tariff applies for services furnished within the State of Idaho. This tariff is on file with the Idaho Public Utilities Commission and copies may be inspected, during normal business hours, at the Company's principal place of business or at the Commission's headquarters, 472 West Washington Street, Boise, Idaho 83702; (208) 334-0300.

TARIFF FORMAT

A. Sheet Numbering: Sheet numbers appear in the upper right corner of the page. Sheets are numbered sequentially. However, new sheets are occasionally added to the tariff. When a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between pages 11 and 12 would be page 11.1.

B. Sheet Revision Numbers: Revision numbers also appear in the upper right corner of each sheet where applicable. These numbers are used to indicate the most current page version on file with the Commission. For example, 4th Revised Sheet 13 cancels 3rd Revised Sheet 13. Consult the Check Sheet for the sheets currently in effect.

C. Paragraph Numbering Sequence: There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:

- 2.
- 2.1
- 2.1.1
- 2.1 1.A
- 2.1 1.A.1
- 2.1 1.A.1. (a)
- 2.1 1.A.1. (a).I
- 2.1 1.A.1. (a) .I. (i)
- 2.1.1.A.1. (a) .I. (i) . (1)

D. Check Sheets: When a tariff filing is made with the Commission, an updated Check Sheet accompanies the tariff filing. The Check Sheet lists the sheets contained in the tariff, with a cross reference to the current Revision Number. When new sheets are added, the Check Sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (*). There will be no other symbols used on this sheet if these are the only changes made to it (i.e., the format, etc. remains the same, just revised revision levels on some sheets). The tariff user should refer to the latest Check Sheet to find out if a particular sheet is the most current on file with the Commission.

SYMBOLS

The following are the only symbols used for the purposes indicated below:

- C - to signify change in regulation
- D - to signify a deletion
- I - to signify a rate increase
- L - to signify material relocated in the tariff
- N - to signify a new rate or regulation
- R - to signify a rate reduction
- T – to signify a change in text, but no change in rate or regulation

SECTION 1 – TECHNICAL TERMS AND ABBREVIATIONS

Access Line – An arrangement from a local exchange telephone company or other common carrier, using either dedicated or switched access, which connects a Customer's location to WorldTeq Corporation location or switching center.

Authorization Code – A numerical code, one or more of which may be assigned to a Customer, to enable WorldTeq Corporation to identify the origin of the Customer so it may rate and bill the call. Automatic number identification (ANI) is used as the authorization code where ever possible.

Commission - Used throughout this tariff mean the Kansas Corporation Commissoin.

Customer – The person, firm, partnership, corporation or other entity which orders the services of WorldTeq Corporation or purchases a WorldTeq Corporation service and/or originated services, such as Prepaid Calling Cards, and is responsible for the payment of charges and for compliance with the Company's tariff regulations.

WorldTeq - Used from this point on throughout this tariff to means WorldTeq Corporation, a Delaware corporation.

Holiday – New Year's Day, Independence Day, Memorial Day, Labor Day, Thanksgiving Day and Christmas Day.

MRC– A Monthly Recurring Charge is a fee for service that is charged to the customer's account monthly while service is activated. This fee applies to WorldTeq's Inbound and Outbound Long Distance services and VoIP services. The fee is billed per month, per phone line.

One-time set up fee –A one-time connection fee is charged to the customer's account for each provisioned phone line utilizing either WorldTeq's Inbound and Outbound Long Distance services or VoIP services.

Pay Phone Surcharges– This fee applies to WorldTeq's Calling Card plan. Should a customer use the calling card from a pay phone, a nominal fee is deducted from the balance on their card.

PIN (Personal Identification Number) Code – A numerical code, one or more of which are available to a customer to enable him/her to access the carrier, and which are used by the carrier both to prevent unauthorized access to its facilities and to identify the customer for billing purposes.

Prepaid Account – An inventory of Telecom Units purchased in advance by the Customer, and associated with one and only one Authorization Code as contained in a specific Prepaid Calling Card.

Prepaid Calling Card – A card issued by the Company, containing an Authorization Code which identifies a specific Prepaid Account of Telecom Units, which enables calls

to be processed, account activity to be logged, and balances to be maintained, on a prepayment basis.

Resp. Org. – Responsible Organization or entity identified by an 800 service Customer that manages and administers records in the 800 database and management system.

Switched Access – The Customer gains entry to the Company's services by a transmission line that is switched through the local exchange carrier to reach the Company's point of presence.

Telecom Unit – A measurement of telecommunications service equivalent to one minute of usage between any two points within the State of Kansas.

Telecommunications – The transmission of voice communications or, subject to the transmission capabilities of the services, the transmission of data, facsimile, signaling, metering, or other similar communications.

Underlying Carrier – The telecommunications carrier whose network facilities provide the technical capability and capacity necessary for the transmission and reception of Customer's telecommunications traffic.

SECTION 2 – RULES AND REGULATIONS

2.1 Undertaking of the Company

This tariff contains the regulations and rates applicable to intrastate resold telecommunications services provided by WorldTeq for telecommunications between points within the State of Idaho. Resale services are furnished subject to the availability of facilities and subject to the terms and conditions of this tariff in compliance with limitations set forth in the Commission's rules. The Company's services are provided on a statewide basis and are not intended to be limited geographically. The Company offers service to all those who desire to purchase service from the Company consistent with all of the provisions of this tariff. Customers interested in the Company's services shall file a service application with the Company which fully identifies the Customer, the services requested and other information requested by the Company. The Company reserves the right to examine the credit record and check the references of all applications and Customers prior to accepting the service order. The service application shall not in itself obligate the Company to provide services or to continue to provide services if a later check of applicant's credit record is, in the opinion of the Company, contrary to the best interest of the Company. The Company may act as the Customer's agent for ordering access connection facilities provided by other carriers or entities when authorized by the Company. The Customer shall be responsible for all charges due for such service arrangement.

The Company's services are provided on a monthly basis, unless otherwise stated in this tariff. Services are available twenty-four (24) hours per day, seven (7) days per week.

- 2.1.1 The Services provided by WorldTeq are not part of a joint undertaking with any other entity providing telecommunications channels, facilities, or services, but may involve the resale of the Message Toll Service (MTS) and Wide Area Telecommunications Services (WATS) of underlying common carriers subject to the jurisdiction of this Commission.
- 2.1.2 The rates and regulations contained in this tariff apply only to the resale services furnished by WorldTeq and do not apply, unless otherwise specified, to the lines, facilities, or services provided by a local exchange telephone company or other common carrier for use in accessing the services of WorldTeq.
- 2.1.3 The Company reserves the right to discontinue furnishing services, or limit the use of service necessitated by conditions beyond its control, including, without limitation: lack of satellite or other transmission medium capacity; or when the use of service becomes or is in violation of the law or the provisions of this tariff. WorldTeq will not provide additional service nor connect new Customers to any system which would compound a shortage condition until the problem has been identified and relief implemented.

2.2 Use of Service

- 2.2.1 WorldTeq services may be used for any lawful purpose consistent with the transmission and switching parameters of the telecommunications facilities utilized in the provision of services, subject to any limitations set forth in this Section 2.2.
- 2.2.2 The use of WorldTeq's services to make calls which might reasonably be expected to frighten, abuse, torment, or harass another or in such a way as to unreasonably interfere with use by others is prohibited.
- 2.2.3 The use of WorldTeq's services without payment for services or attempting to avoid payment for services by fraudulent means or devices, schemes, false or invalid numbers, or false calling or unauthorized credit cards is prohibited.
- 2.2.4 WorldTeq's services are available for use twenty-four (24) hours per day, seven (7) days per week.
- 2.2.5 WorldTeq does not transmit messages, but the services may be used for that purpose.
- 2.2.6 WorldTeq services may be denied for nonpayment of charges or for other violations of this tariff.
- 2.2.7 Customers shall not use the service provided under this tariff for any known unlawful purpose or for any use as to which customer has not obtained all required government approvals, authorizations, licenses, consents and permits.
- 2.2.8 The Customer is responsible for notifying the Company immediately of any unauthorized use of services.

2.3 Liability of the Company

- 2.3.1 The Company shall not be liable for any claim, loss, expense or damage (including indirect, special or consequential damages) for any interruption, delay, error, omission, or defect in any service, facility or transmission provided under this tariff No.1, if caused by any person or entity other than the Company, the Underlying Carrier by any malfunction in any service/facility provided by any other carrier, an act of God, fire, war, civil disturbance, act of government, or due to any other causes beyond the Company's control, unless due to the Company's negligence or willful act.
- 2.3.2 The Company shall not be liable for, and shall be fully indemnified and held harmless by the Customer against any claim, loss, expense, or damage for defamation, libel, slander, invasion of privacy, infringement of copyright or patent, unauthorized use of any trademark, trade name or service mark, proprietary or creative right, or any other injury to any person, property or entity arising out of the material, data or information transmitted over the facilities of the company.
- 2.3.3 No agent or employee of any other carrier or entity shall be deemed to be an agent of or employee of the Company.
- 2.3.4 The Company's liability for damages, resulting in whole or in part from or arising in connection with the furnishing of service under this tariff, including but not limited to mistakes, omissions, interruptions, delays, errors, or other defects shall not exceed an amount equal to the charges provided for under this tariff for the long distance call from the period during which the call was affected. No other liability in any event shall attach to the Company.
- 2.3.5 Reserved for Future Use.
- 2.3.6 The Company shall not be liable for any loss of revenue or profits, for any reason whatsoever, including the breakdown of facilities associated with the service, or for any mistakes, omissions, delays, errors, or defects in transmission occurring during the course of furnishing services, unless such liability is the result of any negligent or intentional act or omission by the Company.
- 2.3.7 The included tariff language does not constitute a determination by the Commission that a limitation of liability imposed by the Company should be upheld in a court of law. Acceptance for filing by the Commission recognizes that it is a court's responsibility to adjudicate negligence and consequential damage claims. It is also the court's responsibility to determine the validity of the exculpatory clause.

2.4 Responsibilities of the Customer

- 2.4.1 The Customer is responsible for placing any necessary orders and complying with tariff regulations. The Customer is also responsible for the payment of charges for services provided under this tariff.
- 2.4.2 The Customer is responsible for charges incurred for special construction and/or special facilities which the Customer requests and which are ordered by WorldTeq on the Customer's behalf.
- 2.4.3 If required for the provision of WorldTeq services, the Customer must provide any equipment space, supporting structure, conduit and electrical power without charge to WorldTeq.
- 2.4.4 The Customer is responsible for arranging access to its premises at times mutually agreeable to WorldTeq and the Customer when required for WorldTeq personnel to install, repair, maintain, program, inspect or remove equipment associated with the provision of WorldTeq services.
- 2.4.5 The Customer shall cause the temperature and relative humidity in the equipment space provided by Customer for the installation of WorldTeq equipment to be maintained within the range normally provided for the operation of microcomputers.
- 2.4.6 The Customer shall ensure that the equipment and/or system is properly interfaced with WorldTeq's facilities or services, that the signals emitted into WorldTeq's network are of the proper mode, bandwidth, power and signal level for the intended use of the subscriber and in compliance with criteria set forth in this tariff, and that the signals do not damage equipment, injure personnel, or degrade service to other Customers. If the Federal Communications Commission or some other appropriate certifying body certifies terminal equipment as being technically acceptable for direct electrical connection with interstate communications service, WorldTeq will permit such equipment to be connected with its channels without the use of protective interface devices. If the Customer fails to maintain the equipment and/or the system properly, with resulting imminent harm to WorldTeq equipment, personnel or the quality of service to other Customers, WorldTeq may, upon written notice, require the use of protective equipment at the Customer's expense. If this fails to produce satisfactory quality and safety, WorldTeq may, upon written notice, terminate the Customer's service.
- 2.4.7 The Customer must pay WorldTeq for replacement or repair of damage to the equipment or facilities of WorldTeq caused by negligence or willful act of the Customer or others, by improper use of the services, or by use of equipment provided by Customer or others.

- 2.4.8 The Customer must pay for the loss through theft of any WorldTeq equipment installed at Customer's premises.
 - 2.4.9 Reserved for Future Use.
 - 2.4.10 The Customer must use the services offered in this tariff in manner consistent with the terms of this tariff and the policies and regulations of all state, federal and local authorities having jurisdiction over the services.
- 2.5 Cancellation or Interruption of Services**
- 2.5.1 WorldTeq may discontinue service to a customer or may withhold the provision of ordered or contracted services as follows:
 - 2.5.1.A Upon seven (7) days notice for nonpayment of any sum due for more than thirty (30) days after issuance of the bill for the amount due,
 - 2.5.1.B Immediately for violation of any of the provisions of this tariff,
 - 2.5.1.C Immediately for violation of any law, rule, regulation, policy of any governing authority having jurisdiction over WorldTeq, or
 - 2.5.1.D Immediately by reason of any order or decision of a court, public service commission or federal regulatory body or other governing authority prohibiting WorldTeq from furnishing its services.
 - 2.5.2 Without incurring liability, WorldTeq may interrupt the provision of services at any time in order to perform tests and inspections to assure compliance with tariff regulations and the proper installation and operation of Customer and WorldTeq equipment and facilities, and may continue such interruption until any items of noncompliance or improper equipment operation is identified and rectified.
 - 2.5.3 Services may be discontinued by WorldTeq without notice to the Customer, by blocking traffic to certain countries, cities or NXX exchanges, or by blocking calls using certain Customer authorization codes, when WorldTeq deems it necessary to take such action to prevent unlawful use of its service. WorldTeq will restore service as soon as it can be provided without undue risk, and will, upon request by the Customer affected, assign a new authorization code to replace the one that has been deactivated.
 - 2.5.4 The Customer may terminate service upon written or verbal notice. Customer will be liable for all usage on any of the Company's service offerings until the Customer actually leaves the service. Customers will continue to have Company usage until the Customer or its agent notifies its local exchange carrier and changes its long distance carrier. Until the

Customer so notifies its local exchange carrier, it shall continue to generate and be responsible for long distance usage.

2.6 Credit Allowance

- 2.6.1 Credit may be given for disputed calls, on a per call basis.
- 2.6.2 Credit shall not be issued for unavailability of long distance service.
- 2.6.3 Credit allowance for the interruption of service which is not due to the Company's testing or adjusting, negligence of the Customer, or due to the failure of channels or equipment provided by the Customer, are subject to the general liability provisions set forth in Subsection 2.3. It shall be the customer's obligation to notify the Company immediately of any service interruption for which a credit allowance is desired. Before giving such notice, the customer shall ascertain that the trouble is not being caused by any action or omission by the customer within his control, or equipment, if any, furnished by the customer and connected to the Company's facilities. No refund or credit will be made for the time that the Company stands ready to repair the service and the subscriber does not provide access to the Company for such restoration work.
- 2.6.4 No credit shall be allowed for an interruption of a continuous duration of less than twenty-four (24) hours after the subscriber notifies the Company.
- 2.6.5 The customer shall be credited for any interruptions of more than twenty-four hours as follows:

Credit Formula:

$$\text{Credit} = A/B \times C$$

- "A" – outage time in hours
"B" – each month is considered to have 720 hours
"C" – total monthly recurring charge for affected facility

2.7 Restoration of Service

The use and restoration of service shall be in accordance with the priority system specified in part 64, Subpart D of the Rules and Regulations of the Federal Communications Commission.

2.8 Deposit

The Company does not collect deposits at this time.

2.9 Reserved for Future Use

2.10 Payment and Billing

- 2.10.1 Service is provided and billed on a billing cycle basis, beginning on the date that service becomes effective. Billing is payable upon receipt.
- 2.10.2 The customer is responsible for payment of all charges for services furnished to the Customer, as well as to all persons using the Customer's codes, exchange lines, facilities, or equipment, with or without the knowledge or consent of the Customer. The security of the Customer's Authorization Codes, subscribed exchange lines, and direct connect facilities is the responsibility of the Customer. All calls placed using direct connect facilities, subscribed exchange lines, or Authorization Codes will be billed to and must be paid by the Customer.
- 2.10.3 All bills are presumed accurate, and shall be binding on the customer unless objection is received by the Company in written or verbal notice within a reasonable amount of time after such bills are rendered. Nevertheless, no credits, refunds, or adjustments shall be granted unless demand is received by the Company in writing.
- 2.10.4 For customers whom the Company feels an advance payment is necessary, the Company reserves the right to collect an amount not to exceed one (1) month's estimated charges as an advance payment for service. This will apply against the next month's charges and if necessary a new advance payment will be collected for the next month.
- 2.10.5 All charges due by the Customer are payable by credit card, ACH payment or to any agency duly authorized to receive such payments. Any objection to billed charges should be promptly (within 15 days of receipt of invoice) reported to the Company. Adjustments to customers' bills shall be made to the extent that records are available and/or circumstances exist which reasonably indicate that such charges are not in accordance with approved rates or that an adjustment may otherwise be appropriate.

2.11 Collection Costs

In the event Company is required to initiate legal proceedings to collect any amounts due to Company for services provided, equipment or facilities, to enforce any judgment obtained against a Customer, or for the enforcement of any other provision of this tariff or applicable law, Customer shall, in addition to all amounts due, be liable to Company for all reasonable costs incurred by Company in such proceedings and enforcement actions, including reasonable attorneys' fees, collection agency fees or payments, and court costs. In any such proceeding, the amount of collection costs, including attorneys' fees, due to the Company, will be determined by the court.

2.12 Taxes

All federal, state, local and E911 taxes, assessments, surcharges, or fees, including sales taxes, use taxes, gross receipts taxes, and municipal utilities taxes, are billed as separate line items on certain bills and are not included in the rates quoted herein.

2.13 Late Charge

A fee of 1.5% per month will be charged on any monthly invoice due for more than 30 days.

2.14 Return Check Fee

A return check charge of \$20.00 will be assessed for checks returned for insufficient funds.

2.15 Reconnection Charge

A reconnection fee of \$35.00 per occurrence will be charged when service is reestablished for Customers which have been disconnected due to non-payment. Payment of the reconnection fee and any other outstanding amounts will be due in full prior to reconnection of service.

SECTION 3 – DESCRIPTION OF SERVICE

3.1 Computation of Charges

- 3.1.1 The total charge for each completed call may be a variable measured charge dependent on the duration, distance and time of day of the call. The total charge for each completed call may also be dependent only on the duration of the call, i.e. a statewide flat rate per minute charge. The variable measured charge is specified as a rate per minute, which is applied to each minute. All calls are measured in increments as set forth in the Rates Section 4 of this tariff. All calls are rounded up to the next whole minute increment.
- 3.1.2 Where mileage bands appear in a rate table, rates for all calls are based upon the airline distance between the originating and terminating points of the call, as determined by the vertical and horizontal coordinates associated with the exchange (the area code and three digit central office code) associated with the originating and terminating telephone numbers. If the Customer obtains access to the Company's network by a dedicated access circuit, that circuit will be assigned an exchange for rating purposes based upon the Customer's main telephone number at the location where the dedicated access circuit terminates. The vertical and horizontal (V&H) coordinates for each exchange and the airline distance between them will be determined according to industry standards.
- 3.1.3 Timing begins when the called station is answered and two-way communication is possible, as determined by standard industry methods generally in use for ascertaining answer, including hardware answer supervision in which the local telephone company sends a signal to the switch or the software utilizing audio tone detection. Recognition of answer supervision is the responsibility of the Underlying Carrier. Timing for each call ends when either party hangs up. WorldTeq will not bill for calls not completed.

3.2 Customer Complaints and/or Billing Disputes

Customer inquiries or complaints regarding service or accounting may be made in writing or by telephone to the Company at:

Monday – Friday 9:00 A.M. to 5:00 P.M.	WorldTeq Corporation 30 West Gude Drive, Suite 470 Rockville, MD 20850 Toll Free: (877) 724-8201
Monday – Friday 5:00 P.M. to 9:00 A.M. Saturdays/Sundays – 24 Hours	Phase V 12990 Treeline Avenue Fort Myers, Florida 33913 Toll Free: (877) 724-8201

ISSUED: September 25, 2002

Effective: January 30, 2003

WorldTeq Corporation
30 West Gude Drive, Suite 470
Rockville, MD 20850

**Idaho Public Utilities Commission
Office of the Secretary
ACCEPTED FOR FILING
January 30, 2003
Boise, Idaho**

Any objection to billed charges should be reported promptly to WorldTeq. Adjustments to Customers' bills shall be made to the extent that records are available and/or circumstances exist which reasonably indicate that such charges are not in accordance with approved rates or that an adjustment may otherwise be appropriate. Where over-billing of a subscriber occurs, due either to Company or subscriber error, no liability exists which will require the Company to pay any interest, dividend or other compensation on the amount over-billed.

3.3 Level of Service

A Customer can expect end to end network availability of not less than 99% at all times for all services.

3.4 Billing Entity Conditions

When billing functions on behalf of WorldTeq or its intermediary are performed by local exchange telephone companies or others, the payment of charge conditions and regulations of such companies and any regulations imposed upon these companies by regulatory bodies having jurisdiction apply. WorldTeq's name and toll-free telephone numbers will appear on the Customer's bills.

3.5 Service Offerings

3.5.1 WorldTeq Long Distance Services

WorldTeq Long Distance Service is offered to residential and business customers. The service permits direct dialed outbound calling at a single per minute rate. Service is provided from pre-subscribed, dedicated or shared use access lines. Calls are billed in one-minute increments. A one-time setup fee and monthly recurring fee exists.

3.5.2 WorldTeq 800/888 (Inbound) Long Distance Service

WorldTeq 800/888 (Inbound) Long Distance Service is offered to residential and business customers. The service permits inbound 800/888 calling at a single per minute rate. Service is provided from pre-subscribed, dedicated or shared use access lines. Calls are billed in sixty (60) second increments, with a six (6) second minimum call duration.

3.5.3 WorldTeq Calling Card Service

WorldTeq Calling Card Service is a calling card service offered to any residential and business customers as well as those who subscribe to the WorldTeq standard "1+" Long Distance Service calling plans. Customers using the Carrier's calling card service access the service by dialing a toll free access number followed by a Personal Identification Number (PIN), and the number being called. This service permits subscribers utilizing the Carriers calling card to make calls at a single per minute rate. Calls are billed in one (1) minute increments after the initial minimum period of one

(1) minute. There are no set-up or monthly recurring charges; however, surcharges exist for Calling Card usage with payphones.

3.5.4 VoIP Service

WorldTeq VoIP Service is a Voice over Internet Protocol service offered to both residential and business customers. Customers using the Carrier's VoIP service dial a local access number (or toll free number if no local access is unavailable in their area). The Carrier authenticates the originating number (and PIN number if a toll free access number is used), and uses the Internet network to transfer the call to the central office nearest the destination number. The call is then routed to the destination number. No fax or mechanized dialing is allowed on this service.

3.5.5 VoIP/1+ Bundling Service

WorldTeq VoIP/1+ Bundling Service is a service combining the economical advantages of VoIP Service and standard 1+ Long Distance service. This service allows for faxing and mechanized dialing as well as the added stability of standard 1+ Long Distance service.

3.6 Reserved for Future Use

SECTION 4 – RATES

4.1 WorldTeq Standard 1+ Long Distance Service

Domestic rate per minute: 0.0199 to .069 (depending on plan chosen)
Plan is billed in full minute increments
One-time set up fee
Monthly recurring fee applies

4.2 WorldTeq 800/888 (Inbound) Long Distance Service

Rate per minute: 0.049 to 0.059 (depending on origination)
Plan is billed in full minute increments
One-time set up fee
Monthly recurring fee applies

4.3 WorldTeq Calling Card Service

Domestic rate per minute: 0.0799
Plan is billed in full minute increments
No set up fee
No monthly recurring fee applies
Payphone surcharges may apply

4.4 WorldTeq VoIP Service

Rate per minute: 0.0155 to 0.300 (depending on plan chosen)
Plan is billed in full minute increments
One-time set up fee
Monthly recurring fee applies

4.5 Rate Periods

Rates remain the same twenty-four (24) hours per day, seven (7) days a week.

4.6 Payphone Dial Around Surcharge

A dial around surcharge may be charged. We do not currently offer this service.

4.7 Payphone Surcharge on Calling cards

\$.50

4.8 Monthly recurring fee

\$3.99

4.9 One-time set up fee

\$4.99
